Cancerous Ulcers

ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly, and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating, sloughing ulcers.

When a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer.

Dear Sirs:—I have not words strong enough to praise your great medicine. I had a sore on my left temple for several years. It would itch and burn and bleed, would scab over, but would never heal. The doctors pronounced it Cancer. After taking S. S. S. while the sore began to discharge, and when all the poisonous matter had passed out it healed. I took in all about thirty bottles, taking it for some time after it had entirely healed. This was about ten years ago, and I have seen no sign of it since.

Gant, Audrain County, Mo. JOSEPHUS REID.

These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood, and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. Medical advice or any information you may desire will be given by our physician without charge.

MAN WAS WELL KNOWN

Has Been Identified as Prominent Attorney of the Pacific Coast Well Known in Clubs.

WAS FOUND DEAD IN ROOM

Was About to Be Buried by the City When His Wife Appeared and Said It Was Her Husband.

New York, June 8.—It has just been learned that W. Parker of San Francisco, who was found dead in a Broadway hotel Sunday morning, was Walter Basil Parker, a graduate of Harvard university, and said to be a member of the Bohemian and Pacific clubs of San Francisco, two of the most exclusive organizations on the coast. He was prominent in legal circles before coming to New York a little more than a year ago. What business brought him east is not known but until a few days ago, his acquaintances say he has appeared to be well supplied with funds.

A coroner's physician who examined the body found that death was caused by acute gastritis produced by some agency with which he was unfamiliar. The stomach is being analyzed. Orders have been given a burial company to cremate the body when a woman, said to be Mrs. Parker, appeared and directed that it should be made ready for regular burial.

TRIED TO LYNCH HIM.

Four Policemen Fight to Save Driver Who Injures Boy.

New York, June 8.—George Cannon of No. 68 Erie street, Jersey City, a driver employed by the Wells-Fargo Express Company, was saved from rough treatment by an enraged crowd at Seventh avenue and Thirty-sixth street last evening by four policemen after his truck had passed over Campbell Rasmussen, 4 years old, in front of No. 345 Seventh avenue. The boy came here from Boston two days ago to visit the family of Thomas Callahan, at that address. The boy is now at the New York hospital with serious internal injuries and contusions.

Gannon was greatly concerned over the boy's injury, and did everything he could to help the lad, but the crowd, disregarding this and crying, "Lynch him!" tore at his clothing until driven off by the police. Even then Gannon had to be guarded by three policemen on his way to the station. He was later bailed out by his employers. He is charged with assault, pending the result of the boy's injuries.

WENT TO SLEEP ON TRACK.

Logger Cut to Pieces by Train Near Cottage Grove.

Cottage Grove, Ore., June 8.—A man by the name of Wynt, who has been in the employ of the Booth-Kelly Lumber Company at Saginaw, three miles north of this city, was run over by the northbound overland and instantly killed yesterday morning. He had been in this city and started for Saginaw about 2 o'clock yesterday morning, and was supposed to have been under the influence of liquor and went to sleep on the track.

The engineer did not see him until too late and the train ran over him, severing his head, one arm and one limb from his body. The train was stopped and the Coroner of this city immediately notified.

Driven to Desperation.

Living at on out-of-the-way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in Burns, Cuts, Wounds, Ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth; 25c. At Chas. Rogers' Drug Store.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters, and the result was miraculous. I improved at once, and now I'm completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by Chas. Rogers, Druggist.

CANADA'S IMMENSE RESOURCES.

They Make a Conspicuous Exhibit at the World's Fair.

St. Louis, June 8.—It is now conceded that the part Canada takes at the universal exposition surpasses everything which has been heretofore undertaken by the Dominion. There is not the slightest doubt that she will be to the front in the matter of natural resources—agriculture, horticulture, mines, forestry, fisheries and pulp industries—when the matter of awards and prizes is discussed by the jury of awards.

Canada for years has been plodding along quietly developing its strength and seemed rather small in the eyes of her neighbors to the south. Within the past three or four years, however, there is a change of aspect in the eyes of the public men and a change of tone in the American press. Canada's resources and possibilities are now being realized, even to the extent of being a factor in competition with those of the United States. For years the United States have prided themselves on their great sources of wheat and meat supplies, and of the advantages of their settlers' lands. The growth of Canada's northwest and the immense wheat crops of that country in the last five or six years, with the millions of acres carrying rich and fertile soil, still unbroken, have shown the possibility of a grain producing country that would soon outrival the United States.

And while Americans have been almost dazed at this development, the great grain fields of millions of acres in the northwest territories have been opened and the influx of settlers, not only from the United States, but also from Great Britain and the continent, has come in earnestly only to raise to a greater estimation the Dominion resources and possibilities.

There is more. The great advantages of cattle raising in the western part of the territories has led a great number of Americans to cast their lot and future welfare in these parts for the purpose of producing meat, which is now admitted can be done as well as in any country in the world, if not cheaper.

The Canadian exhibits in agriculture, forestry, fish and game, horticulture and mines and metallurgy are among the most conspicuous at St. Louis and can give a fair idea of what possibilities are in store for the neighbors to the north.

FAIL TO BREAK WILL.

Ruling Giving Property to Heirs as Mentioned in Document.

Eugene, Ore., June 8.—Suit to break the will of the late George W. Pickett has ended in failure, so decides County Judge H. R. Kincaid in a recent ruling.

The contestants of the will were Kate White, E. M. McGinnis, James McGinnis, Julia A. Vaughan, George Fullerton, Mary Woods, John Trout and wife. Their allegations were that the testator was cajoled and coerced into making bequests to the defendants; that he was not, owing to bodily infirmities, mentally competent to dispose of his property.

The will gives to Kate White, niece of the testator, \$1000; to W. H. Hoffman and Helen Hoffman, each \$500; to each of the brothers and sisters of the testator, if living, \$250, or if they are dead, to their surviving children, the same amount, to be divided among them; provides for a monument for the testator; appropriates \$100 to keep his grave in repair, and gives the remainder of the estate to Agnes Joyce, sister of the testator.

The estate is valued at about \$30,000. The contestants are nieces and nephews of the testator.

The World's Fair Route.

Those anticipating an eastern trip, or a visit to the Louisiana Purchase exposition at St. Louis, cannot afford to overlook the advantages offered by the Missouri Pacific Railway, which, on account of its various routes and gateways, has been appropriately named "The World's Fair Route."

Passengers from the northwest take the Missouri Pacific trains from Denver or Pueblo, with the choice of either going direct through Kansas City, or via Wichita, Fort Scott and Pleasant Hill. Two trains daily from Denver and Pueblo to St. Louis without change, carrying all classes of modern equipment, including electric lighted observation parlor cafe dining cars. Ten daily trains between Kansas City and St. Louis.

ORDERED INLAND.

Russian Troops Will Not Risk an Engagement.

Pekin, June 8.—(Morning.)—Viceroy Alexieff recently issued a proclamation stating that he had instructed the troops not to engage the Japanese forces but to retire inland. Manchuria being thereby kept free of actual warfare, the Chinese inhabitants are, therefore, instructed to continue their usual avocations. Those caught helping the Japanese or acting against Russia are threatened with extermination and also that they will be held responsible for the preservation of the railways, the responsibility resting upon villages located within 20 miles from the point where there has been any destruction of this class of property. For the first offense the people of such villages will be fined, for the second offense the villages will be destroyed, and the villagers will be put to the sword, not a soul being spared.
